**SAFETY ENFORCEMENT OF PERSONAL PROTECTIVE EQUIPMENT
IN VALLETTA GATEWAY TERMINALS LTD**

Valletta Gateway Terminals Ltd ("VGT") is responsible for safety within the cargo handling facilities at Lab Wharf ("LW") and Deep Water Quay ("DWQ").

VGT has spent sufficient time during the last two years to educate all stakeholders on the need to wear Personal Protective Equipment ("PPE") with VGT operations facilities.

However, in the interest of furthering safety, VGT has recently implemented a "zero tolerance" policy regarding the wearing of safety PPE.

For the avoidance of doubt, required PPE includes hi-viz vest, helmets and safety shoes. It is clarified that anyone not wearing the safety PPE will **strictly** not be allowed entry into VGT facilities. In addition, anyone found not wearing the required PPE in the facilities will be **strictly** ejected. Serial offenders may be banned from entering VGT facilities for specific periods.

Please do contact us if clarification is needed.
